

AI Voice Receptionist — Product Overview

Never Miss a Call. Never Lose a Patient. Never Stop Growing.

Built for Modern Clinics & Service Businesses

What Is This?

An AI-powered phone receptionist that **answers every call, books appointments, sends confirmations, and manages your front desk — automatically, 24 hours a day, 7 days a week.**

No monthly salary. No sick days. No missed calls. No missed revenue.

CURRENT FEATURES — Available Today (Version 1.0)

1. Real, Human-Like Phone Conversations

- **Sounds like a real person** — warm, professional voice, never robotic
- **Understands natural speech** — patients can speak normally, Sam understands intent
- **Pauses when interrupted** — if the patient talks over it, Sam listens first, just like a real human
- **Auto-reconnects if the call drops** — no conversation is ever lost

2. Fully Automatic Appointment Booking

- **Books directly into Google Calendar** — zero manual entry required
- **Prevents double bookings** — checks availability in real-time before confirming
- **Reschedules appointments** on patient request — no staff needed
- **Cancels appointments** on patient request — handled gracefully

- **Lists available time slots** — "Would 3 PM on Friday work for you?"

➡ 3. Instant Confirmations — Sent Automatically After Every Action

When a Booking is Made:

Channel	Who Gets It	What's Included
 SMS	Patient's phone	Name, Date, Time, Location, Clinic contact
 WhatsApp	Patient's phone	Same details, nicely formatted
 Email	Patient's email (if on file)	Professional HTML email from clinic address

When a Booking is Cancelled: *(New — just added)*

Channel	Who Gets It	What's Included
 SMS	Patient's phone	Cancellation confirmation + rebooking link
 SMS	Clinic staff phone	Instant alert: patient name, date, time cancelled
 Email	Patient's email (if on file)	Cancellation email with clinic contact

Your front desk is notified the moment anything changes — even if no one is at the desk.

4. Smart Conversation Memory

- **Never asks the same question twice** — name given once, remembered for the whole call
- **Collects booking details step by step** — no confusion, no repetition

- **Greets returning patients by name** — "Welcome back, Sarah! How can I help you today?"
 - **Remembers patient history** from your CRM — previous visits, preferences
 - **Stays updated with your latest info** — pricing, timing, staff — all live
-

5. Full Call Reporting — Every Call Logged Automatically

- **Every call recorded and stored** — calls received, calls booked, calls missed
 - **Full conversation transcript saved** — readable anytime in your dashboard
 - **AI-generated call summary** — "Patient enquired about acne scar treatment and booked for Friday"
 - **Clinical/business notes auto-drafted** — ready for staff review
 - **Call recording saved** — listen back whenever you need
-

6. Admin Dashboard — Your Business at a Glance

- **Today's calls and bookings** — real-time overview
 - **Revenue estimate** — based on confirmed appointments
 - **Full appointment list** — sorted by time
 - **Update clinic info on the fly** — no developer needed, ever
-

7. Safety, Escalation & Lead Recovery

- **5-minute call cap** — prevents runaway costs automatically
 - **Transfers angry or complex callers** to a real staff member — Sam knows its limits
 - **Missed call auto-SMS** — "We missed your call! Book here: [link]" sent instantly to the patient
 - **Ends every call warmly** — professional farewell, clean disconnect
-

8. Always On — 24/7, 365 Days a Year

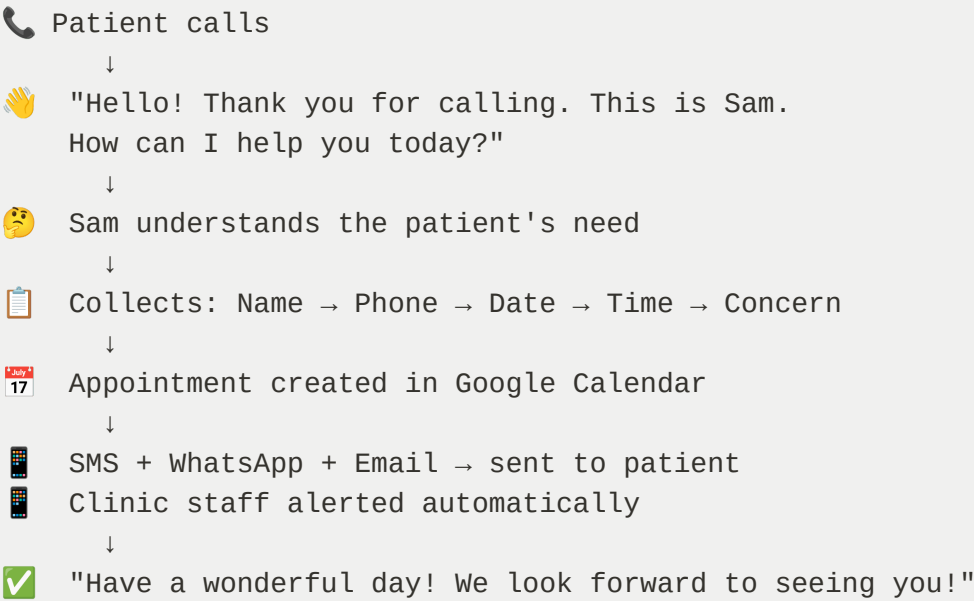

- **Answers at 2 AM just as well as 2 PM** — zero missed patients

- **Cloud-hosted** — works even if your office is closed
- **Real-time system monitoring** — always know it's running

What a Complete Call Looks Like

Plain Text

Before vs. After

Before (Without Sam)	After (With Sam)
	
Missed calls = lost revenue	Every call answered, 24/7
Manual appointment entry	Fully automatic Google Calendar booking
Patients forget or no-show	SMS + WhatsApp + Email reminders sent
No record of conversations	Every call logged, transcribed, summarized
Staff on leave = clinic suffers	Sam never takes a day off
Patient cancels — nobody knows	Clinic gets SMS alert instantly

Patients waiting on hold

Zero hold time, instant responses

PRODUCT ROADMAP — What's Coming Next

"You're not just buying a product today — you're investing in a platform that keeps getting smarter."

Version 1.0 — Available Right Now

Feature	Status
AI Voice Receptionist (Sam)	 Live
Automatic Appointment Booking	 Live
Google Calendar Integration	 Live
Patient CRM (Database)	 Live
Admin Dashboard	 Live
Call Recording & Storage	 Live
AI Call Summaries & Notes	 Live
SMS + WhatsApp + Email Notifications	 Live
Cancellation SMS to Patient & Clinic	 Live
Missed Call Auto-Rescue SMS	 Live
24/7 Cloud Hosting	 Live

Version 1.5 — Coming Soon

Smart intelligence layer — your AI doesn't just answer, it thinks.

Feature	What It Does
AI Analytics Dashboard	Visual charts: busiest hours, top treatments, call trends over time
Lead Scoring	AI scores each caller: "High intent to book" vs. "Just browsing" — so you follow up with the right people
Sentiment Analysis	Detects if a caller is frustrated, happy, or confused — flags calls for your review
Multi-Location / Multi-Clinic Support	One dashboard to manage 2, 5, or 10 clinic locations simultaneously
AI Follow-Up Calls & SMS	Automatically follows up with patients who didn't book — "Hey, you called us yesterday..."

Version 2.0 — The Full Platform

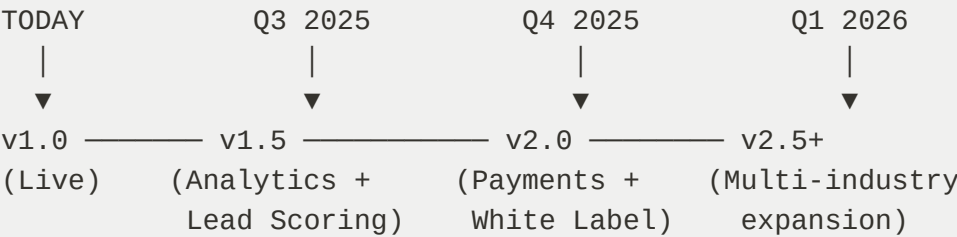

From tool to full business operating system.

Feature	What It Does
In-Call Payment Collection	Patient pays deposit over the phone — Razorpay / Stripe integrated
Automated Review Collection	After the visit, patient gets a SMS: "How was your experience? Leave a review 🙌"
No-Show Prediction	AI predicts which patients are likely to miss their appointment — triggers reminder calls 24hr before
Revenue Dashboard	Real-time revenue tracking: bookings → confirmed → completed → payment collected
White Label	Clinics can brand the AI as their own — "Hi, this is Maya from ClearSkin Clinic!"
HIPAA-Ready Security	Encrypted storage, access controls, audit logs — ready for US healthcare compliance requirements

Roadmap Timeline

Plain Text

Industries This AI Receptionist Serves

The same AI core — trained and customized for your specific business:

Industry	How Sam Helps
 Medspa & Aesthetic Clinics	Books treatments, answers skin/laser queries, handles packages
 Dermatology Practices	Manages appointment flow, answers patient FAQs, generates clinical notes
 Dental Offices	Books cleanings, procedures, emergency consults 24/7
 Real Estate	Qualifies leads, schedules property tours, follows up with buyers

Each deployment is custom-trained with your clinic's specific services, pricing, staff, and policies.

Why Buy Now?

Reason	Detail
 Lock in early pricing	Version 1.0 price — before the platform matures

 Roadmap influence	Early clients get input on which features ship first
 Instant ROI	One recovered missed call pays for weeks of service
 White-glove setup	We configure everything — you just answer questions
 No long-term contract	Start, see results, then decide

"This isn't just software. It's a 24/7 team member that never calls in sick, never forgets to follow up, and never lets a patient slip through the cracks."

Ready to See It Live?

Schedule a 15-minute demo call. You'll hear Sam answer a real call from start to finish — and we'll show you exactly how it would work for your clinic.
